MEDICAL PRACTICES ADVISORY BUREAU

L. S. POTTER, M.B., CH.B.

Medical Director

Dr. Geoffrey C. Hobbs of The Croft, Broughton, Hampshire (Tel: Broughton 210) requires an assistant with view to partnership owing to his ill health and possible retirement within a year or so.

The practice is wholly rural and dispensing. The district served includes about eight villages and in five of these the principal has branch surgeries which he regularly visits.

The present N.H.S. list numbers approximately 1,500 and the average gross income for the last three years has been £2,492. Included in this figure is about £100 obtained from midwifery and about £50 obtained from private work.

After an assistantship of three months a one-half share will be offered to a suitable man.

The salary during the probationary period is being left as a matter for arrangement.

The principal can, if necessary, supply a car for the incoming man's use and accommodation at the practice house for a single man. It is anticipated that a married couple could probably obtain a furnished flat in the locality.

If you are interested please communicate with Dr. Hobbs direct and let us know, in due course, if you come to any arrangement.

N.B.—Address of Principal of above is given upon condition that (1) Applicant requires it solely for his own use, (2) he will not divulge it to anyone, (3) he will not (without consent of Principal) make inquiries locally which may lead to Principal's intentions becoming known, or make other use of information which may be injurious to interests of the Principal.
