My mother took me to Dr. Hall in  
1902. I ~~had~~ <sup>had fallen</sup> put my front teeth,  
thru my tongue!!

With the exception of Dr. Hobbs all the  
other doctors had horse-drawn transport

Dr. Cusse went over to a car. a  
JE DEJAN & but kept one foot out on the  
Running board, & held one door unclashed.

I have a faint recollection that the cottage  
adjoining the House was used as a Surgery  
by one or more of the doctors?

I remember him sitting in the Bay window to
